

Reincarnation is a false belief

Explained by Shaykh Fawzan

**Question:** O noble Shaykh I read in a book that the souls are transmigrated from one person to another, is this correct?

**Shaykh Fawzan:** This statement is false. This is the concept of reincarnation. This is from an evil sect, a disbelieving sect. The souls are **not** transmigrated from one individual to another. Each individual has their own soul. The souls are taken at the time of sleep and then returned, and the souls are taken at the time of death and not returned until the resurrection. At this time each soul shall return to its body. This is the statement concerning the soul. And it is one of the signs from Allah, and it is a miracle which is only known to Allah the Exalted; meaning no one knows the reality of the soul except for Allah the Glorified and Exalted.

Each individual has a soul and it is not transmigrated to another.
